

Tools for Getting Paid

Stat demands, adjudications and the art of writing effective letters

15:30 - 17:30
20 November 2019
Quigg Golden Belfast

2.5 hours CPD

Our industry is in turmoil! You only have to look at the recent collapses of well established main contractors in the UK to see this. The knock-on effect from this demonstrates just how fragile the construction industry is and how risks are unfairly passed down through the supply chain.

So, as a contractor or sub-contractor, how do you protect yourself?

This seminar will focus on using aspects of the contract and the law to manage claims and disputes, so as to maximise your commercial recover and reduce your risk. We will look at how to use the contractual mechanisms and statutory frameworks in place to ensure cash flow on a project and demonstrate how these can be used to best protect contractors and sub-contractors.

Who should attend?

This seminar is tailored for both main and sub-contractors, and is a must for all those involved in the supply chain who are regularly not being paid, or face slow or late payment.
