Adjudication Ireland Course

MASTERCLASS

Adjudication Masterclass

The ultimate aim of the course is to deliver delegates a deep understanding of the Adjudication process: what saves you time and money and what makes for a successful Adjudication.

The Adjudication Masterclass is aimed at those already familiar with construction disputes and who want to learn more about adjudication, and also those who want to be able to prepare for and run simple adjudications themselves. It is suitable for anyone from the one man band Quantity Surveyor, to those managing the commercial aspects of major national projects, or even just those looking to brush up on skills and knowledge gained by us.
